About the Journal. This journal is named after Abraham Zelmanov (1913-1987), a prominent scientist working in the General Theory of Relativity and cosmology, whose main goal was the mathematical apparatus for calculation of the physical observable quantities in the General Theory of Relativity (it is also known as the theory of chronometric ...

Models of the Universe are described and classified into three major categories: Historic, Expanding, and Cellular. It is shown that all expanding universe models violate the cosmic edge and containment principle. The multi-millennium conflict between the two major world views --the changing dynamic universe and the unchanging stable universe ...
