

economic valuation of the pdf

In finance, valuation is the process of determining the present value (PV) of an asset. Valuations can be done on assets (for example, investments in marketable securities such as stocks, options, business enterprises, or intangible assets such as patents and trademarks) or on liabilities (e.g., bonds issued by a company).

Brand valuation is the job of estimating the total financial value of the brand. Like the valuation of any product, or self review, a conflict of interest exists if those that value the brand also were involved in its creation. The ISO 10668 standard sets out the appropriate process of valuing brands, and sets out six key requirements:
